KAWAN AND COLOR GROUP FORMATIONS

Simple Kawan formations are necessary to orderliness and smartness and for getting the Color Groups lined up quickly for games and projects.

These formations compose Scout drill using silent hand signals, and not the military-type drill with shouted commands.

Silent Signals for Kawan Formations

The arm signals for Kawan formations are intended to facilitate preparations for unified group action even when the noise and the fury of the elements prevail. These signals are given by the Kawan Leader or whoever is designated as drill master facing the Kawan in operational activities.

The intelligent leader should not limit herself to the use of signals suggested. Conditions like terrain, weather, kind of emergency, physical conditions of the Scouts, and the like, should enable her to determine more practical uses of signals.

Herewith are brief descriptions and some uses of the arm signals:

- a) **SINGLE RANK FORMATION** (Kawan Line) – Extend both arms horizontally, parallel to the line you wish Kawan to take, palms turned front if you want the Color Groups in front of you.

How to Execute: Flag Bearers take up positions in front at center of their Color Groups. Color Groups fall in line two paces behind with two paces interval between Color Groups. The line dresses right without command.

Uses: For general line-up, for inspection in meeting room, also in preparing to move the Kawan across a wide area.

Variation: CLOSED SINGLE RANK - Extend both arms horizontally, parallel to the line you wish the color groups to take, fist closed.

How to execute: Similar to Single Rank Formation, except that Flag Bearers fall in on the right of their Color Groups.

- b) **COUNCIL FORMATION** – Both arms obliquely downward, palms facing inward.
How to Execute: Color Groups fall in line, in a single line semi-circle formation around the Kawan Leader or Chief Usa in-charge. Color Groups observe same order of sequence as in a Kawan Line, though Flag Bearers fall in on the right of their Color Groups.
Uses: For demonstrations, announcements, or special ceremonies.

- c) **“U” FORMATION (Horseshoe Shape)** – Both arms extended sideways but bent at right angles at elbows, palms open facing inwards.
How to Execute: Color Groups fall in, in a single line. Color Groups observe same order of sequence as in Kawan Line, though Flag Bearers fall in on the right of their Color Groups.
Uses: For Flag Ceremonies and Awarding Ceremonies.

- d) **KAWAN CIRCLE FORMATION** - Both arms obliquely downward, palms facing inward, then swing them from front to rear and back several times.
How to Execute: Color Groups form a complete circle around the Leader in the same order as in Council formation.
Uses: For ceremonies and circle games.

- e) **OPEN COLUMN OF COLOR GROUPS** – Both arms extended forward, but bent at right angles at elbows, palms open with fingers toward the sky.
How to Execute: Color Groups fall in, one behind the other, dressing immediately on the front Color Group and on the right. A distance equal to the length of each Color Group should be left between it and the Color Group in front of it. Flag Bearers take two paces in front of the center of their Color Groups.
Uses: For inspection and parade formation.

- f) **CLOSED COLUMN OF COLOR GROUPS** – Same as for open column of Color Groups, except that fists are closed.
How to Execute: Similar to Open Column of Color Groups, except that each Color Group falls in, two paces behind the Color Group in front of it, with the Flag Bearers on the right of his Color Group.
Uses: For assembly in small room or area and crowded parade formation.

- g) **PARALLEL FILES** (Color Group Files) – Arms forward at shoulder height, palms facing inward, fingers pointing front.
How to Execute: Flag Bearers take positions two paces apart, their members fall in behind them.
Uses: For relays and other games.

Gesture Field Signals

The mobilization leader should not hesitate to use gesture field signals to attain his operational objectives. The following brief descriptions and meanings of the field signals will enable the leader to find more versatile use for each.

- 1) **FORWARD** – One arm extended upward then brought down to the front parallel to the ground. Also means “Follow Me”, “Let’s Go”, “Keep Moving.”

- 2) **HALT** – Hand brought straight upward over shoulder with palm facing front. Means, “stop but be on the alert,” “Don’t Move.”

- 3) **HURRY** – Closed fist, hand over shoulder; armed is pumped up and downward, means “Double Time,” “Run”. If assigned to do something, this signal means “Make it Snappy.”
